Copilot

Introduction

Who am I?

- Said Nikjou
  - Sr. Cloud Solution Architect

Who are you?

- Name, role
- Experience with Microsoft 365 Copilot
- Expectations for the Prompt-a-thon

What is a Prompt-a-thon?

A Prompt-a-thon is an immersive interactive learning event to educate participants about how to effectively use GenAI tools to enhance their productivity.

Goals of a Prompt-a-thon

- **Skill-building:** learn how to turn a problem into a clear task.
- **Experimentation & Innovation:** Experiment with ideas, discover new workflows, and build confidence through hands-on experimentation.
- **Efficiency & Time-Saving:** convert slow, manual tasks into Copilot workflows.
- **Organizational/Institutional:** Accelerate AI readiness across the institution and surface practical use cases that solve institutional pain points.
- **Collaboration & Knowledge-Sharing:** Build a shared library of high-quality prompts and encourage collaboration across departments.

Microsoft 365 Copilot Prompt-a-thon!

Break	10 mins
Team Presentations each team presenting their Hack.	50 mins

Los Angeles Department of Water & Power

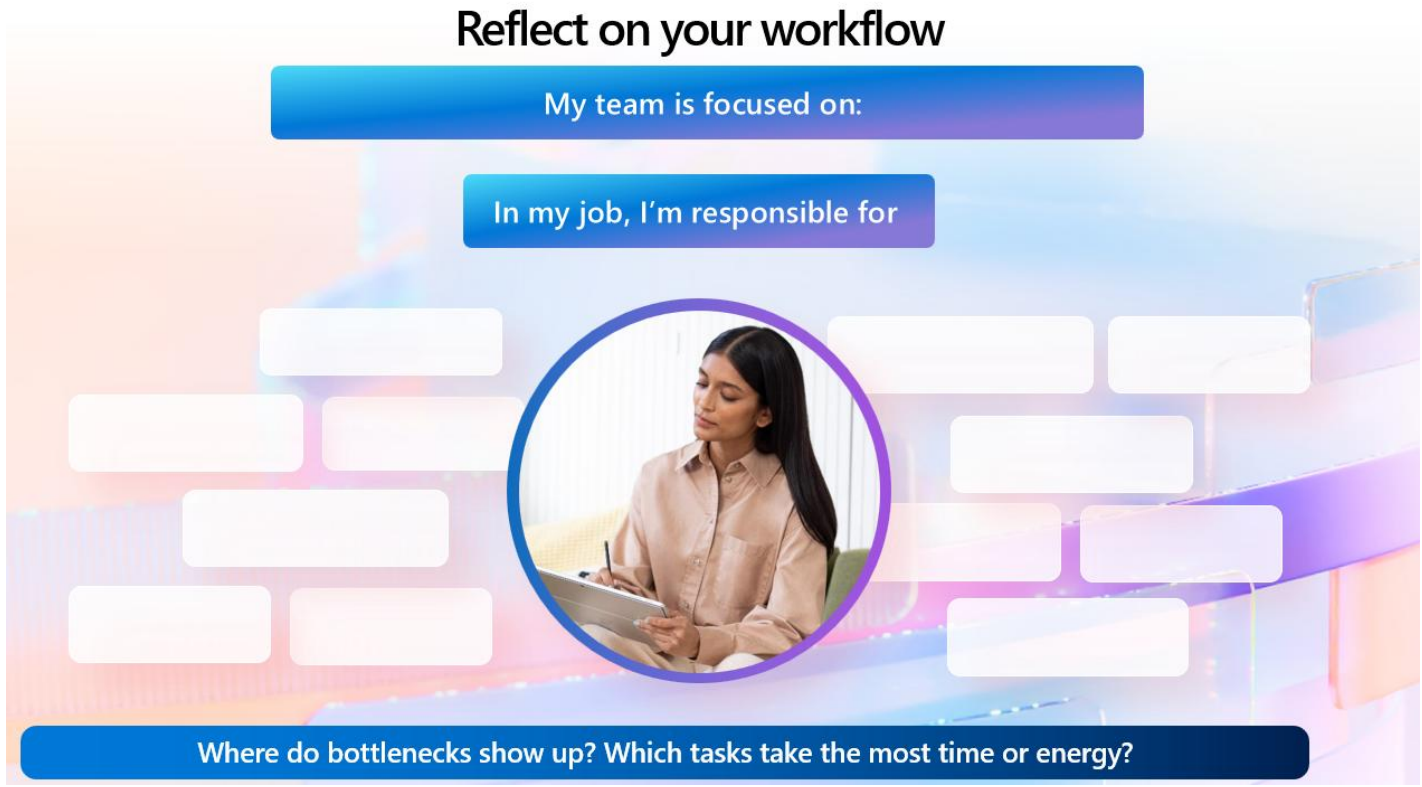

Using Copilot in Your Day-to-Day Work

Step 1

Reflect on your workflow (Use the Hack Pack)

Where do bottlenecks show up? Which tasks take the most time or energy?

Step 2

Translate your reflections into a Copilot use case.

Identify the role, the task, and how Copilot or Copilot Studio could simplify or support the work.

Template

As someone in...

Insert Text Here describing the persons role & team

I want to...

Insert Text Here describing the ***job*** the person wants/needs to complete

Using...

Insert details of how Copilot will be used for this scenario and or what

I'll know this is successful when...

(Solutions success measure)

Insert Text Here describing what successful job completion looks like

Time saving (optional)

Hours/week Spent

Value Calculated

Hours per week saving

Step 3

Turn your scenarios into actionable Prompts or AI agents

Choose tasks from your scenario and write the prompt or create an agent you would use in the M365 app that supports it.

Step 4

Share your use cases with your peers.

Share with your colleagues where Copilot really shines in your workflow.

Reflect on your workflow

Completed Example

Teams in HR are focused on:

In my job, I'm responsible for

- Recruitment
- Compensation
- Staffing
- Benefits
- Risk Management
- Performance
- Offboarding
- Compliance
- HR Operations

Identify the role, the task, and how Copilot could simplify or support the work.

Completed Example

Template

As someone in...

(Business Group / Persona)
People Operations, I receive hundreds of emails from employees covering a wide range of topics, including benefits and pay, leave, personnel information changes, time-off policies, grievances, harassment, accommodations, and more.

I want to...

(Description of what I want to do)
Create an AI agent that gives employees quick, clear, and friendly answers to HR questions. It will use only approved information from the HR SharePoint site and explain policies in language that is easy to understand.

Using...

(Specific Copilot tool)
Microsoft 365 Copilot Agent Builder

I'll know this is successful when...

(Solutions success measure)

Decrease the volume of employee HR inquiries received by email.

The value Copilot Chat provided me in completing this job (Functional, Emotional, Social)

(Value associated with copilot's help)

Reduces HR workload while providing employees with quick, clear, and empathetic answers.
